25X1

The Poprad-Tatry Airfield, located a few kilometers west of Poprad 4903N-2018E, was a grass field laid out sometime before World War II. In the summer of 1952, the field was being used solely by the Czechoslovak Airlines (Ceskoslovenske aerolinie - CSA). The main administration building appeared to be new in summer 1952. It was a two-story building, 60 x 20 m. in size. As of 1950, there was no concrete runway. There were some hangars there. The attached sketch shows the location of the airfield area.
